

Tuxedo Touch™

CENTRALIZED CONTROL OF SECURITY, VIDEO AND Z-WAVE®
ENABLED THERMOSTATS, LIGHTS, SHADES AND LOCKS

Welcome to Your Connected Home

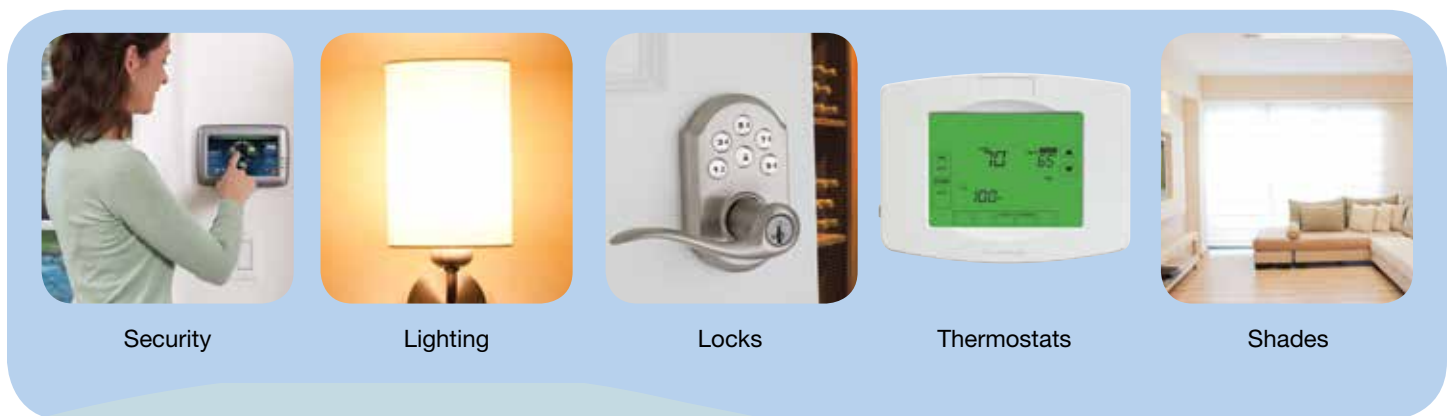

Honeywell

Bring Your Home to Life!

Honeywell's Tuxedo Touch™ functions as a home security and automation controller, VISTA® keypad, camera viewer and digital picture frame all in one. The magnificent, 7" high-resolution touchscreen provides you with the easiest way to automate and control your security system, heating and cooling systems, Z-Wave® enabled door locks, shades, lighting and more.

Tuxedo Touch can help you make the most of your home—letting you enjoy lifestyle enhancement, energy savings and endless possibilities. Security. Comfort. Convenience. It will make your home more enjoyable—and your life easier—than you've ever dreamed possible. Welcome to your connected home.

Honeywell Total Connect™ Remote Services

Wherever you are, you can opt to control your system and receive important alerts about events in and around your home with Honeywell Total Connect. Whether you use your PC, iPhone®, iPad® or other compatible mobile device, the function icons look and operate just like the ones on Tuxedo Touch™!

Control Your System from Almost Anywhere

With Honeywell Total Connect, you can:

- Control your Z-Wave® enabled lighting, locks, thermostats and shades
- Receive notifications of events in and around your home via email, text messages or video alerts (e.g. a flood or delivery arrival)
- Know when your children have arrived home from school or if they haven't arrived home by a certain time—even unlock the door for them remotely if they forget their keys!
- Keep an eye on your home and family via remote look-in video
- Know if floods or extreme temperatures have been detected
- Know if valuable objects have been moved
- Keep an eye on workers in and around your home via remote look-in video

Same graphic icons as Tuxedo Touch!

Remote Video Viewing

- Enhance your protection with the ability to view live video of the premises
- Check up on your kids, housekeepers, pets, contractors and more from another area of your home
- Keep a watchful eye over vulnerable areas like pools, backyards and front doors any time

Local Video Viewing

Video can be viewed around the premises on the Tuxedo Touch, smartphones, tablets or televisions.

This option does not require Honeywell Total Connect.

Portable indoor and outdoor cameras can be placed virtually anywhere and are ideal for both on-premises and remote video viewing.

Unlock Your Home's Potential!

Did your kids forget their keys again? Have a neighbor stopping by to drop off a package? Unlock the door remotely from the comfort of your office—right from your smartphone, PC or any wireless mobile device.

Smart Server...Smart Home!

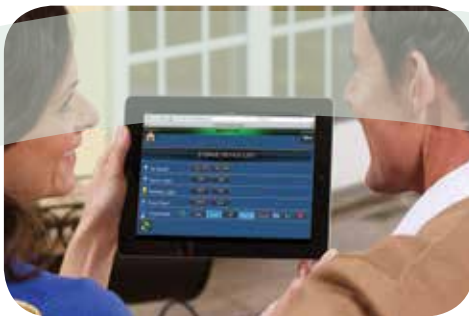

Control Your System from Anywhere in Your Home

On-premises Control

Your smartphone deserves a smart home. The built-in web server allows you to locally control Tuxedo Touch™ anywhere in your home on an iPhone®, iPad®, Android™, BlackBerry®, web-enabled TV or any compatible wireless mobile device using your home's Wi-Fi® network*.

**On-premises control requires Ethernet or Wi-Fi network. Ask your installation professional for more information.*

Connect to the Possibilities

With the touch of a finger, your home can come to life. Think you forgot to turn off your outside lights when you're downstairs watching a movie? Just reach for your smartphone and check. You can keep an eye on your kids when they're at home through Internet TV from the comfort of your couch. You can also have weather reports delivered right to the screen. The possibilities are endless. The only limitation is your imagination!

iPhone and iPad are registered trademarks of Apple® Inc. All other trademarks are property of their respective owners.

Security Made Simple

You'll know how to use Tuxedo Touch™ the first time you see it. It's intuitive, easy to learn and easy to use. Adding Honeywell Total Connect™ Remote Services makes operation even more efficient.

- Icons are immediately recognizable by function to make operation crystal clear whether you're using the touchscreen, PC, iPhone®, iPad®, BlackBerry®, Android™, web-enabled television or other compatible device—without having to download an app
- Icons and words are easy to read and highly visible on the bright, crystal clear screen—making Tuxedo Touch ideal for users of any age
- Voice annunciation of alarm conditions*
- Video surveillance accessible on the keypad, TV or touchscreen in the home

**Voice annunciation option available in English language only.*

Locks

- Lock and unlock your doors right from Tuxedo Touch and disarm your security system right through the keypad on your door lock
- You can create locking schedules or lock and unlock doors whenever you are on premises, automatically when arming or disarming the system or remotely with Honeywell Total Connect

Energy Management

Savings, Comfort and Control

Thermostats

- Z-Wave® enabled thermostats can automatically adjust every time you arm or disarm your security system.* Imagine the comfort, convenience and savings you'll enjoy without any change in your daily routine!
- Manage your energy costs with customized scenes that can control your Z-Wave enabled thermostats and lights
- Precise temperature control enables our thermostats to provide better comfort, fewer temperature swings and conserve more energy*
- You can create "lockouts" to keep temperature limited to a minimum or maximum setting—ideal in homes where children may attempt to adjust the thermostat*
- Fan circulation feature moves air when heating or cooling is not required—saving energy and helping to eliminate hot or cold spots
- Control your thermostats from wherever you are with Honeywell Total Connect™ Remote Services

Lighting

Tuxedo Touch™ makes automated household lighting a snap! Turn Z-Wave enabled indoor and outdoor lights on or off every time you arm or disarm your security system—a great way to save money and energy when you're away and enter a comfortable, well-lit home when you return. You can also control lights remotely with Honeywell Total Connect.

Ceiling Fans

Z-Wave enabled ceiling fans can be automated to turn on or off when you arm and disarm your security system, programmed for specific times, work in conjunction with lighting and more!

Shades

Operate Z-Wave enabled shades in your home for ambiance, privacy and security by raising and lowering them at specified times. Shades can protect expensive furniture and floor coverings from damaging sun glare. They're also a great way to avoid needlessly heating your home and incurring extra expenses.

*When used with Honeywell's ZWSTAT Thermostat

Set the Scene

Scene Scheduling

Tuxedo Touch™ makes it easy to set scenes that occur on a regular basis through Z-Wave® technology—enhancing your comfort and helping you make the most out of your home. You can unlock the front door for a babysitter or housekeeper at the same time every week, set the lights to turn off when you leave your home in the morning and turn on before you arrive home at night. Just use your imagination!

Event-driven Scene Activation

You can combine sensors in Honeywell's VISTA® security system and Tuxedo Touch for event-driven settings. For example, if your child wakes up at night and enters a dark hallway, the motion sensor can trip a Z-Wave light to come on automatically and safeguard them against trips and falls.

Amazing Touchscreen

The vivid, 7" display brings your memories to life for an incredible photo viewing experience—supporting over 16 million colors. It lets you show off your treasured photos with the same glorious, real-life detail and vibrant colors as high quality prints.

- High-resolution 7" touchscreen shows images in eye-popping detail
- Displays photos or video
- Easily upload digital photos and personal videos from the camera's SD card
- Create and edit cinema-quality slideshows right at the Tuxedo Touch™ display

Sleek, Stylish Design

The extra large screen and choice of white or silver housings make your pictures pop and match any décor.

Picture the Possibilities

The home controller, digital picture frame, video viewer, VISTA® security system and brilliant, intuitive touchscreen are an unbeatable combination—letting you enjoy the lifestyle-enhancing benefits you won't find anywhere else. Just picture what Tuxedo Touch can do for you! Ask your security professional for details today.
